When is a business not a business?

When it's a Senior's Home in Regina.

Barely a month since the election, and the duplicity continues. City Council had rightly decided to include Senior's Homes in the Business Tax rolls. Suddenly, a few days later, the decision is reversed. WTF?!

In my opinion, a business is a business, and should be taxed accordingly. Obviously the conspiracy of duplicity has already permeated the new City of Regina Council.
